FOR IMMEDIATE RELEASE

The American Geographical Society Awards 2022 Council Fellowship to Mr. Elamin Elamin

Description: The American Geographical Society (AGS) awards Mr. Elamin Elamin of the University of Maryland, College Park the 2022 AGS Council Fellowship.

[New York City, NY] – [March 28, 2022] — The American Geographical Society (AGS) announced the recipients of the 2022 AGS Council Fellowships to support master’s and doctoral research. Mr. Elamin Elamin, a Ph.D. candidate at the University of Maryland, College Park, is one of four recipients of the 2022 Fellowship. Established in 2013, graduate students from universities around the world are eligible to apply for the $1,500.00 award. AGS will recognize the Fellowship recipients during its annual Fall Symposium, being held the week of November 14-18, 2022.

Mr. Elamin will use the fellowship award to fund his research, Applying a Food/Energy/Water/People Framework to Assess Impacts of the World’s First Climate Change Famine in Madagascar. Upon receiving the scholarship, Mr. Elamin noted, “My research goal is to study how the dynamics of environmental change serve as a challenge to global security and to produce new understandings about the human dimensions of global climate change. I will be doing so by conducting fieldwork in Madagascar.”

“Members of the American Geographical Society Council believe that supporting researchers who address contemporary issues is fundamental. To ensure the health of the discipline, we must support young scholars” said Dr. Marie Price, Chair of the Selection Committee and President of AGS. “We are delighted to fund four promising young scholars in their field investigations through the AGS Council Fellowships and we look forward to reading about their discoveries,” added Dr. Price.

The American Geographical Society is a 21st-century learning society dedicated to the advancement of geographic thinking, knowledge, and understanding across business, government, academe, social sectors, and most importantly with teachers and students. Established in 1851, AGS is the oldest professional geographical organization in the United States. It is recognized worldwide as a pioneer in geographical research and education for 170 years. The mission of AGS is to convene a diverse global community of innovators, thinkers, and practitioners; create and curate geographical knowledge, learning and exploration; and advance geographic science and technologies to address society’s challenges and opportunities. The Society maintains its headquarters in New York City.
